

Care Instructions for Woven Tapestries

Cleaning

- **Spot clean only** using a mild detergent and cold water.
- Gently blot stains with a soft cloth — **do not rub**, as this may distort the weave.
- For deeper cleaning, use a **handheld vacuum** on low suction to remove dust.

Washing

- **Do not machine wash** — woven fibers may stretch or warp.
- **Do not bleach** — chemicals can damage colors and fabric.

Drying

- If lightly damp from spot cleaning, **lay flat to air dry**.
- Avoid direct sunlight while drying to prevent fading.

Ironing / Wrinkle Removal

- Use a **steamer** on low heat from a safe distance.
- If ironing is necessary, place a **thin cloth** over the tapestry and use **low heat**.
- Never apply heat directly to the woven surface.

Hanging & Care

- Hang using **tapestry rods, clips, or command strips** to avoid puncturing the fabric.
- Keep away from sharp objects that may snag the weave.
- Avoid prolonged direct sunlight to maintain color vibrancy.

Storage

- Roll (do not fold) to prevent creases.
- Store in a cool, dry place away from moisture.
